

Skillo kids academy was founded in 2015, we are the pioneers in the field of Abacus Education in India.

ABACUS

Our Program children can learn the branch of mathematics concerned with numerical calculations, such as addition, subtraction, multiplication, and division. (**Arithmetic Skills**) the core skills your brain uses to think, read, learn, remember, reason, and pay attention (**Cognitive skills**).

Coordination of small muscles in movement with the eyes, hands and fingers. (**Fine motor skills**). It is a Stress free concept to understand faster. It helps to uplift your skills to do fast and accurate mental Calculations.
